

The background of the cover art depicts a chaotic battle scene in Vietnam. A large military helicopter is the central focus, with another one visible in the distance. The scene is filled with smoke, fire, and the silhouettes of soldiers. The overall color palette is dominated by dark greens, browns, and fiery oranges and reds, creating a sense of intense action and conflict.

# BATTLEFIELD

## *Vietnam*

# REDUX

<http://www.replacementdocs.com>

# SYSTEM REQUIREMENTS

## MINIMUM CONFIGURATION

- Windows® XP, Windows Me, Windows 2000, Windows 98
- 933 MHz Intel® Pentium III or AMD® Athlon™ processor
- 256 MB RAM (384 MB recommended for Windows XP)
- 16x CD-ROM/DVD-ROM drive
- 2.0 GB free hard disk space plus space for saved games (additional space required for Windows swap-file and DirectX™ 9 installation)
- 64 MB Direct3D™ capable video card using the NVIDIA® GeForce™ 3 or greater, or ATI® Radeon® 8500 or greater chipset with DirectX 9 compatible driver
- DirectX 9 compatible sound card
- Keyboard
- Mouse

## REQUIRED FOR MULTIPLAYER

### Internet (2-32 players)

- Cable, DSL, or faster Internet connection
- One set of game discs per player

### Network (2-32 players)

- TCP/IP compliant network
- One set of game discs per player

# INSTALLING THE GAME

### To install *Battlefield Vietnam*™:

1. Start the Windows operating system.
2. Close all open programs and background tasks, including virus scanners.
3. Insert *Battlefield Vietnam* Disc 1 into your CD-ROM/DVD-ROM drive. The Choose Your Language menu appears.

**NOTE:** If the Autorun menu does not automatically appear, left-click the  Start button from the Windows Taskbar and select **Run....** Type **D:\autorun.exe** in the Run dialog box, then click OK (substitute the correct letter of your CD-ROM/DVD-ROM drive if other than 'D:').

4. Select your language and click OK, then click INSTALL, then click NEXT at the InstallShield Wizard.
5. You are prompted to select the components you wish to install. Check the boxes next to the components you wish to install, then click NEXT. For more information on AceGain LiveUpdate, see p. 5.
6. At the prompt, enter your serial number, which can be found on the back of your *Battlefield Vietnam* CD case. Click OK to continue.
7. If you have DirectX 9.0a or earlier installed, you are prompted to install DirectX 9.0b.

8. Select YES, INSTALL GAMESPY ARCADE NOW, or NO, INSTALL GAMESPY ARCADE LATER, then click NEXT.
9. Select the program folder and click NEXT. The game files are copied to your hard drive.
10. At the prompt, remove Disc 1 and insert Disc 2. At the next prompt, remove Disc 2 and insert Disc 3.
11. If you wish to read the readme file or create a *Battlefield Vietnam* shortcut on your desktop, click the appropriate boxes and click FINISH.
12. After the remaining components finish installing, select either REGISTER NOW or REGISTER LATER from the prompt.

## STARTING THE GAME

### To start *Battlefield Vietnam* (with disc already in drive):

1. Close all open programs and background tasks, including virus scanners.
2. Left-click the  Start button from the Windows Taskbar and select **All Programs (or Programs) > EA GAMES > Battlefield Vietnam > Battlefield Vietnam**.

### To start *Battlefield Vietnam* (without disc already in drive):

1. Start the Windows operating system.
2. Close all open programs and background tasks, including virus scanners.
3. Insert *Battlefield Vietnam* Disc 1 into your CD-ROM/DVD-ROM drive. The Autorun menu appears.

**NOTE:** If the Autorun menu does not automatically appear, left-click the  Start button from the Windows Taskbar and select **Run....** Type **D:\autorun.exe** in the Run dialog box, then click OK (substitute the correct letter of your CD-ROM/DVD-ROM drive if other than 'D:').

4. Left-click the **PLAY** button.

## UNINSTALLING/RE-INSTALLING THE GAME

If you are having problems or the game did not install correctly the first time, we recommend re-installing the game.

### To uninstall *Battlefield Vietnam*:

1. Start the Windows operating system.
2. Left-click the  Start button from the Windows Taskbar and select **All Programs (or Programs) > EA GAMES > Battlefield Vietnam > Uninstall Battlefield Vietnam**.
3. Follow the on-screen instructions to complete the uninstall process.

### To re-install *Battlefield Vietnam*:

- Follow the *Installing the Game* instructions on page 1.

Fire/Horn		Mouse Button 1
Alternate Fire		Mouse Button 2
Switch to Position 1-6	<b>1-6</b>	
Open Radio Song List	<b>O</b>	

## SETTING UP THE GAME

Before shipping off to war, head to the Profile screen (under Options) and set up your identity. Then set other options if you choose, or head straight into battle.

### OPTIONS

From the Options menu you can customize your *Battlefield Vietnam* experience. Most of the options for creating a game are self-explanatory. Those needing more explanation are explained below.

**Custom Game** Activate any *Battlefield Vietnam* mods that you have downloaded and installed.

**Profiles** Customize your in-game persona, including name, crosshair color, and more. Select EXPANDED RADIO COMMANDS for an expanded command bar (see p. 7). When the Auto Reload Weapon box is not checked, you must press **R** to reload your weapon manually. You can save multiple Profiles on the same computer.

## ACEGAIN LIVEUPDATE

With LiveUpdate from AceGain, *Battlefield Vietnam* updates itself automatically. When a patch or update is available, the game downloads the file from the Electronic Arts web site and installs it in the background, ensuring you are always running the most current version of the game.

## MULTIPLAYER

Teamwork is the name of the game in Multiplayer mode, so learn to work and communicate with your teammates (see *Command Bar* on p. 7) to develop and execute winning strategies.

- In order to play a local game, you must be connected to a LAN. In order to play an Internet game, you must have an active Internet connection\*.
- During Internet setup, click ADD SERVER to add a specific server to the list. You must know the IP address of the server you wish to add. Click JOIN to start a multiplayer game with this particular server, or click ADD to add it and return to the server list.

\* AN INTERNET CONNECTION IS REQUIRED FOR THIS FEATURE. EA RESERVES THE RIGHT TO TERMINATE ITS ONLINE SUPPORT OF THIS PRODUCT AFTER 90 DAYS NOTICE. Subject to online Terms of Service and all features may not be available at the time of purchase. Please check online at [www.BattlefieldVietnam.ea.com](http://www.BattlefieldVietnam.ea.com) for more information.

## CREATE A NEW MULTIPLAYER GAME

Set up an Internet or a LAN game. Many of the options for creating a game are self-explanatory. Those needing more explanation are explained below.

- Spawn Time** Set the number of seconds a player must wait after his character is killed before he rejoins the battle.
- Tickets** Tickets are points that a team loses when a team member dies. In Conquest mode, tickets are also lost when the opposing team holds a majority of the control points.
- Dedicated** Check this box to host your machine as a dedicated game server. You cannot play a game running on a dedicated machine. Players connecting to this type of server are likely to have a better quality of gameplay.
- Co-Op** When checked, CPU-controlled soldiers ("bots") fill out team rosters so that both sides always have the maximum number of players. Human players entering the game boot out bots. Checking this box brings up the AI Skills option, which determines how intelligent the bots are.

## SERVER LEASE

If you want to host your own *Battlefield Vietnam* multiplayer game but don't want to use your computer as the server, there is another option. The Battlefield Server Lease Program, a service of Electronic Arts, provides high-bandwidth, high-performance servers to *Battlefield Vietnam* gamers. An easy-to-use web interface lets you set up your personal battlefield, including map rotation, administrator password, team kill, and more.

For more information, including rates and ordering instructions, visit [battlefieldhosting.ea.com](http://battlefieldhosting.ea.com).

# PLAYING THE GAME

Enter battle by selecting your troop kit and spawn point (white circles on the map), then click DONE.

- In multiplayer games, if you click CLOSE instead of DONE, you activate the team camera. Float above the battlefield, either locked to one location or free to roam around (depending on the server setting). Press **[C]** to cycle through the camera perspectives of all team members currently alive.

Your main goal in *Battlefield Vietnam* is to capture control points. Holding enough control points causes your enemy's tickets to bleed. Read the briefing at the beginning of each battle to determine how many Control Points your team needs to control.

- To capture a control point, either enemy-held or neutral, approach the control point's flag pole until the capture timer appears and remain there until the timer reaches zero.

## TROOP KITS

Before you head into battle, choose your kit. Your kit is your soldier type and determines which weapons you carry. Within each kit, you can also select from different soldier faces and body types, giving you greater control over your in-game persona.

- If you choose a new kit from the Spawn screen (press **[ENTER]** to access) while you are still alive, you will not have that kit until you re-spawn. However, you can drop your current kit and pick up a new one from a fallen soldier (friend or foe) by standing over the kit and pressing **[G]**.

## ENGINEER

The engineer can plant explosives and landmines and repair all vehicles and stationary weapons. The engineer's specialties include:

- **To repair a damaged stationary weapon or vehicle**, select the wrench, then press and hold Mouse Button 1.
- **To remove a mine**, stand over the mine and press **[G]**.

### US engineers only:

- **To dismantle a vehicle**, select the blow torch and press and hold Mouse Button 1.
- **To detonate a Claymore mine**, place a mine by pressing Mouse Button 1. You may place multiple mines before detonating them. Press Mouse Button 2 to switch to the detonator. Then press Mouse Button 1 again to detonate the mine(s).

### NVA engineers only:

- **To dig up a tunnel entrance spawn point and relocate it**, press **[G]** while standing over the spawn point to dig it up, then select the shovel and press Mouse Button 1 to re-plant it.
- **To plant punji sticks**, select the weapon and press Mouse Button 1. Soldiers impaling themselves on these wooden spikes die instantly.
- **To booby-trap a vehicle**, select the wire-cutters and press and hold Mouse Button 1. When put into use, the vehicle explodes.

## GAME SCREEN

Whether you're on recon in the dense undergrowth of Ia Drang or fighting to take back the streets of Hue, you have to be aware of your situation and surroundings if you plan on coming out of this thing alive.

**Command Bar** Send voice messages to teammates or all players. The command position indicates how many times you must press the key to issue that command. For instance, press **[F1]** twice quickly to issue the “Negative” command, which is in the second position under **[F1]** in the command bar.

**Vehicle Status** A bar in the lower-left corner of the screen shows the condition of the vehicle, aircraft, or vessel whether you are driver, pilot, or passenger.

- **To heal**, stand near a first aid cabinet or kit (indicated by a first aid icon) until your health bar is 100%.
- **To replenish your ammo**, stand near an ammo box.

## 3D MAP

This new feature allows you to orient yourself and plan your next move by finding out the direction to and distance in meters between you and control points or fellow soldiers. Press **[Q]** to bring up icons displaying this information.

## INDIRECT FIRE

Artillery has two modes of firing, one for aiming at short distances, and indirect fire, which is directed by a recon soldier using a remote camera.

- **To place a remote camera and transmit a target position for artillery**, activate the binoculars and press Mouse Button 1.

The target shows up on the mini-map and all artillery can use it to indirectly fire at the enemy. Each camera placement lasts 60 seconds (as long as the recon soldier is alive) or until he places another one.

An icon notifies the artillery gunner of the camera placement.

- **To aim using the remote camera**, press Mouse Button 2 to toggle between the normal in-game view and the camera view.
- A tank icon represents the position of your artillery in relation to the target. This icon is placed along the circle around the target. The icon also has a rotation that shows the cannon angle towards the target.
- If more than one camera is available, switch between them using the mouse wheel. Once you select a camera, press Mouse Button 1 or 2 to return to normal view.

## AIRLIFTING

Airlift tanks and other vehicles to the hot spots in the battle. In order to airlift a vehicle, hover over it in certain helicopters and press and hold Mouse Button 2 (alt fire) to lower the attachment cable. Once your cable extension bar (lower right corner) is full, the cable attachment bar (below the extension bar) fills. A green connection indicator (left of the extension bar) means the cable is attached to the roof of the vehicle. To release a vehicle at any point, simply release Mouse Button 2.

Players riding in the vehicle being airlifted can also disengage the cable by initiating any movement in the vehicle, such as accelerating or turning left or right.

## RADIO

Rock and roll as you thunder into combat. Press **[O]** in any vehicle to bring up the song list, then press the letter of the song you want to hear. To close the song list without selecting a song, press **[ESC]**.

### Add Your Own Music

Add your own songs to the radio list by finding the folder named “My Music” in the root *Battlefield Vietnam* directory, then placing your MP3s there. Only the first 26 songs in the folder are accessible in the game.

**NOTE:** Everybody in the vehicle with you can hear a song you select from the original *Battlefield Vietnam* song list. However, only you can hear your personal MP3s.

## MINI-MAP

This is a smaller version of what you see on the Spawn screen. It appears as an inset in the upper right corner during combat.

## RADAR

All fighter jets are also equipped with radar, which shows up as a green area around your position on the mini-map. All vehicles—ally and enemy—appear in your radar as gray concentric circles when the radar sweeps over them.

# TECHNICAL SUPPORT

TCP AND UDP Port Info

*Battlefield Vietnam* uses the following TCP and UDP port(s) for Internet play:

15567 UDP Game + Punkbuster

22000, 23000 UDP GameSpy (LAN, Internet)

4711 TCP Remote console

27243-27245 (UDP/TCP), All seeing eye

If you have trouble with *Battlefield Vietnam*, EA Technical Support can help. *Battlefield Vietnam* includes the EA Help file that provides solutions and answers to the most common difficulties and questions about how to properly use this product. It also allows you to send a detailed report of your problem directly to EA Technical Support via e-mail.

### To access the EA Help file:

1. Start the Windows operating system.
2. Insert *Battlefield Vietnam* Disc 1 into your CD-ROM/DVD-ROM drive. The Autorun menu appears.

**NOTE:** If the Autorun menu does not automatically appear, left-click the  **Start** button from the Windows Taskbar and select Run.... Type **D:\autorun.exe** in the Run dialog box, then click OK (substitute the correct letter of your CD-ROM/DVD-ROM drive if other than 'D:').

3. Click the **TECH SUPPORT** button on the Autorun menu. *EA Help* opens.

If you are still experiencing difficulty after utilizing the information in the *EA Help* file, you can also use it to contact EA Technical Support. *EA Help* contains a utility that detects your system's hardware and organizes this information into a detailed report. This report helps EA Technical Support solve your problem in the quickest possible time. Please note that you will need to have registered your copy of *Battlefield Vietnam* in order to take advantage of this utility.

### To run the utility:

1. Launch the *EA Help* file.
2. Go to **page 2** of the Welcome screen by clicking the small arrow in the bottom corner.
3. Click the **Contact Tech Support** button. The utility opens.
4. Click OK to begin detecting your hardware.

When it finishes, you can view the gathered information by looking through the various category tabs. To send this information to EA Technical Support, fill out the blank sections under the User tab including a detailed description of the problem you are experiencing and click SEND (if you have an open Internet connection) or SAVE INFO (if you wish to e-mail the file manually). A copy of the report is automatically saved to your Windows desktop.

## EA TECHNICAL SUPPORT ON THE INTERNET

If you have Internet access, be sure to check our EA Technical Support website at:  
[techsupport.ea.com](http://techsupport.ea.com)

Here you will find a wealth of information on DirectX, game controllers, modems, and networks, as well as information on regular system maintenance and performance. Our website contains up-to-date information on the most common difficulties, game-specific help, and frequently asked questions (FAQs). This is the same information our support technicians use to troubleshoot your performance issues. We keep the support website updated on a daily basis, so please check here first for no-wait solutions.

If you are unable to find the information you need on our website, please feel free to contact EA Technical Support via e-mail, phone, or letter. **Please be sure to include the EA Help utility report in your e-mail or letter.**

### To run the utility:

1. Launch the *EA Help* file.
2. Go to **page 2** of the Welcome screen by clicking the small arrow in the bottom corner.
3. Click the **Contact Tech Support** button. The utility opens.
4. Click OK to begin detecting your hardware.

If you need to talk to someone immediately, call us at (650) 628-8468 Monday through Friday between 8:30-11:45 AM or 1:00-4:30 PM, Pacific Standard Time. **Please have the EA Help utility report printed and ready when you call.** This will help us service your call in the quickest possible time. **No hints or codes are available from (650) 628-8468. You must call the EA HINTS & INFORMATION HOTLINE for hints, tips, or codes.**

## LIMITED 90-DAY WARRANTY

### ELECTRONIC ARTS LIMITED WARRANTY

Electronic Arts warrants to the original purchaser of this product that the recording medium on which the software program(s) are recorded (the "Recording Medium") and the documentation that is included with this product (the "Manual") are free from defects in materials and workmanship for a period of 90 days from the date of purchase. If the Recording Medium or the Manual is found to be defective within 90 days from the date of purchase, Electronic Arts agrees to replace the Recording Medium or Manual free of charge upon receipt of the Recording Medium or Manual at its service center, postage paid, with proof of purchase. This warranty is limited to the Recording Medium containing the software program and the Manual that were originally provided by Electronic Arts. This warranty shall not be applicable and shall be void if, in the judgment of Electronic Arts, the defect has arisen through abuse, mistreatment or neglect.

This limited warranty is in lieu of all other warranties, whether oral or written, express or implied, including any warranty of merchantability or fitness for a particular purpose, and no other representation of any nature shall be binding on or obligate Electronic Arts. If any such warranties are incapable of exclusion, then such warranties applicable to this product, including implied warranties of merchantability and fitness for a particular purpose, are limited to the 90-day period described above. In no event will Electronic Arts be liable for any special, incidental, or consequential damages resulting from possession, use or malfunction of this Electronic Arts product, including damage to property, and to the extent permitted by law, damages for personal injury, even if Electronic Arts has been advised of the possibility of such damages. Some states do not allow limitation as to how long an implied warranty lasts and/or exclusions or limitation of incidental or consequential damages so the above limitations and/or exclusion of liability may not apply to you. In such jurisdictions, the Electronic Arts' liability shall be limited to the fullest extent permitted by law. This warranty gives you specific rights. You may also have other rights that vary from state to state.

## RETURNS WITHIN THE 90-DAY WARRANTY PERIOD

Please return the product along with (1) a copy of the original sales receipt, showing the date of purchase, (2) a brief description of the difficulty you are experiencing and (3) your name, address and phone number to the address below and Electronic Arts will mail a replacement Recording Medium and/or Manual to you. If the product was damaged through misuse or accident, this 90-day warranty is rendered void and you will need to follow the instructions for returns after the 90-day warranty period. We strongly recommend that you send your product using a traceable delivery method. Electronic Arts is not responsible for products not in its possession.

## RETURNS AFTER THE 90-DAY WARRANTY PERIOD

If the defect in the Recording Medium or Manual resulted from abuse, mistreatment or neglect, or if the Recording Medium or Manual is found to be defective after 90 days from the date of purchase, please return the product along with (1) a check or money order for \$7.50 made payable to Electronic Arts, (2) a brief description of the difficulty you are experiencing and (3) your name, address and phone number to the address below, and Electronic Arts will mail a replacement Recording Medium and/or Manual to you. We strongly recommend that you send your product using a traceable delivery method. Electronic Arts is not responsible for products not in its possession.
